CORPORATE PRESENTATION

The Atlas Group Divisions

One trusted group. Complete solutions across the asset lifecycle.

BUY & SALES • SERVICE MECANIC CENTRE • AUCTIONS • ASSET RECOVERY & MANAGEMENT • APPRAISALS • STORAGE • FINANCING

October 2026

More expertise. Fewer handoffs. Better results.

www.legroupeatlas.com

Atlas Group gives clients one trusted point of access to seven complementary divisions covering the entire asset lifecycle—from commercial vehicle sales and maintenance to SAAQ inspections, online auctions, asset recovery and appraisal, secure storage, and financing. By bringing these capabilities together, we help businesses, financial institutions, trustees, and public agencies simplify execution, reduce handoffs, and secure solutions tailored to their operational needs.

Camions Atlas Used Trucks

Camions Atlas Used Trucks helps businesses put the right equipment to work—quickly and confidently. We specialize in the retail and wholesale sale of pre-owned heavy-duty trucks, with an inventory that includes highway tractors, dump trucks, cube vans, water trucks, specialized vehicles, and trailers. Our team helps transportation professionals select vehicles that match their operations, performance requirements, and budget.

Atlas Service Centre

Atlas Service Centre keeps vehicles and equipment working safely, reliably, and efficiently. Our technicians service trucks, trailers, engines, and recreational vehicles, offering electronic diagnostics; brake and ABS maintenance; suspension and electrical repairs; and work on clutches, differentials, tires, welding, exhaust systems, air conditioning, and oil changes.

The centre also offers mobile service units and a Preventive Maintenance Program (PEP). As an authorized SAAQ agent, it conducts mandatory mechanical inspections, including inspections for vehicles weighing 4,500 kg or more, such as trucks, buses, and trailers.

Encan Atlas Auction

Encan Atlas Auction turns assets into market opportunities through three flexible, fully online sales formats. We market vehicles, trailers, construction machinery, equipment, recreational vehicles, motorcycles, boats, and many other asset categories. Each sale is tailored to the seller, the number of lots, and the preferred terms—creating a clear, efficient path to qualified buyers.

Our platform expands market reach through an extensive buyer network, supported by targeted exposure across social media and other advertising channels. Sellers can showcase lots, attract competitive bids, and select the sales format that best advances their objectives.

Auction Sales and Public Auctions

- With or without a reserve price or minimum bid
- Auctions close once a month

Public or Private Tender

- With or without a reserve price or minimum bid
- Buy Now option
- Flexible auction closing date

Certified Appraisal Services

Certified Appraisal Services provides appraisals for:

- Refinancing of vehicles, equipment, and other assets.
- Certified appraisals of all types of assets.

Atlas Storage

Atlas Storage delivers the secure capacity organizations need to protect and manage valuable assets. We offer insolvency trustees, financial institutions, and businesses more than 250,000 square feet of indoor and outdoor storage for assets of virtually any size, including passenger vehicles, light- and heavy-duty trucks, trailers, recreational vehicles, travel trailers, boats, and other equipment. Transit-yard space supports short-term parking and equipment logistics, while a two-level loading dock accommodates both standard and low-bed trailers.

Atlas Financing

Atlas Financing helps clients move forward with financing and refinancing solutions for a wide range of vehicles and equipment. Our team provides hands-on guidance, compares market options, and identifies the solution best aligned with each client's needs and objectives.

One Group. Every Stage. Built for Results.

Atlas Group brings specialized expertise together to manage every stage in the lifecycle of a heavy-duty vehicle or piece of equipment—from acquisition, maintenance, and mechanical inspection to appraisal, storage, financing, and resale at auction. Government agencies, carriers, contractors, fleet managers, equipment owners, trustees, financial institutions, and private businesses gain a responsive partner, streamlined coordination, and the confidence of working with one trusted organization.

Security is built into every engagement. All our properties are well lit and fully fenced, with alarm-controlled access points and video surveillance.

Professionalism and confidentiality come standard. Every file is handled with care, and we meet all applicable requirements for information protection and secure document destruction.

Ready to support the full transaction. We hold all dealer licences required to complete transactions with the SAAQ.
